

MOHIT HARGE

Pune, Maharashtra | +91 91563 55901 | hargemohit@gmail.com | [LinkedIn](#) | [Portfolio](#)

Senior Software Engineer (React.js, Next.js, JavaScript) with 4+ years of experience building scalable, high-performance, and cross-platform applications. Skilled in secure payments integration, performance optimization (Core Web Vitals), and responsive UI/UX delivery. Proven track record of improving conversions, reducing drop-offs, and delivering features end-to-end in agile, fast-paced environments.

PROFESSIONAL EXPERIENCE

IntrCity (RailYatri Group) – Noida, India

May 2022 – Present

Senior Front-End Engineer

- Implemented a unified payments page webview (React, Next.js) used across Android, iOS, and web, integrating UPI collect/intent flows and native OS communication via JS interfaces. Delivered this project end-to-end, collaborating with Juspay for seamless cross-platform payments.
- Developed a secure Ladies Seat booking feature using component-based architecture, increasing female user bookings by 45% and enhancing travel safety through conditional seat selection logic.
- Improved Core Web Vitals (LCP, FID, CLS) by 30–50% using Lighthouse audits, Webpack optimizations, lazy loading, and code splitting.
- Optimized the Review Booking page using real-time fare APIs and efficient state management, reducing drop-offs by 25%.
- Built dynamic filters and debounce-based search features with React/Redux, improving UX and reducing API calls by 40%.
- Delivered pixel-perfect responsive UI from Figma/XD, adhering to accessibility and cross-browser standards.

Business Labs – Hyderabad, India

July 2021 – April 2022

Web Development Intern

- Built a scalable full-stack platform for Brilliant Directories using React, Node.js, and MongoDB, contributing to 40% sales growth.
- Led UI/UX design for two web apps, translating business needs into responsive designs with attention to detail.

EDUCATION

Dr. Babasaheb Ambedkar Technological University – Nanded, India

2018 – 2022

Bachelor of Technology in Computer Science Engineering

SKILLS & OTHER

Languages: JavaScript (ES6+), TypeScript, Python, PHP

Frontend: React.js, Next.js, Redux, Bootstrap, jQuery, HTML5, CSS3, Responsive Design, Accessibility

Backend & APIs: RESTful APIs, Node.js

Databases: MySQL, MongoDB

Tools: Git, GitHub, Webpack, Chrome DevTools, Postman, Figma, Lighthouse

Testing & Optimization: Performance Debugging, Core Web Vitals, Unit Testing

Certifications

Executive Post Graduate Program in UI/UX Design – IIT Roorkee

May 2023 – Mar 2024

Full Stack Web Development – Ortigan Learning

Sep 2020 – Jan 2021
